

LACKNER-TINNACHER ECKBERG MORILLON

Region	Soil	Elevation	Alcohol
Südsteiermark	Varied layers of rock: lime marl soils, gravel conglomerates, sandy soils and shell limestone	450 Meters	13%

Vineyard Ried Eckberg - A subsoil composed of lime marl with loam on top provides the nutritious soil, sufficiently supplied with water, in which primarily Burgundy varieties thrive. The vineyards are situated at 450 meters above sea level. Their exposure to the east ensures rapid warming in the morning, quick drying of the grapes, and thus good vitality of the fruit.

Grape Varieties Morillon (Chardonnay).

Vinification Hand-picked, spontaneous fermentation and maturation in stainless steel tanks and big wooden barrels for 8 months.

Age of Vines 35 years

Tasting Notes This multi-layered Morillon shows a lot of fruit flavors in the nose, containing medlars and pear with hints of green tea leaves, walnuts and sesame. Juicy on the palate, fresh and full-bodied with reminiscences of stone fruit like Kriecherl (mirabelle plum), nuts, cardamom and delicate mineral notes.
