

# 2022 BEYRA WHITE

Region	Soil	Elevation	Alcohol
Beira Interior	Granite and Schist with Quartz veins	725 Meters	12.5%

**Vineyard** Various vineyards at an average of 700 meters above sea level

**Grape Varieties** 45% Síria  
45% Fonte Cal  
10% Godello

**Vinification** Hand picked grapes, are fully-destemmed, whole-cluster pressed, fermentation at 16–17°C using native yeasts during 20 days.

**Aging** 4 months in stainless steel vats

**Tasting Notes** Mineral and citrus fruitiness, grapefruit, hints of nettle and white flowers, very fresh and light on the palate, revealing the altitude of the vineyards. The soul of this wine lies in the unique combination of the Síria and Fonte Cal native grape varieties, from old vines planted in granite and schist soils with quartz veins, in the Douro River's hydrographical basin, at an average altitude of 700 meters.

Excellent as an aperitif, with appetizers, grilled fish and shellfish and to share with friends!
