

2021 ERUPTIO ARINTO DOS AÇORES

| Region | Soil | Elevation | Alcohol |
|---------------------|----------|-----------|---------|
| Azores, Pico Island | Volcanic | 100m | 12.5% |

Vineyard Various vineyards

Grape Varieties Arinto dos Açores

Vinification The grapes come from two distinct areas of Pico Island – *Criação Velha* and *Santa Luzia*, both of volcanic soils and vineyards with low capacity of production. The grapes, after selected, are pressed and only the low pressure wort remains.

Aging Fermented in French oak barrels and aged on fine lees for 6 months at 15°C.

Tasting Notes Appealing aroma with discreet notes of fresh tropical fruits, pleasant volcanic sulfur, becoming more complex with slight nuances from the oak barrel where it fermented and aged. On the palate, it has a refreshing acidity and minerality. Very engaging and persistent volume. Saline finish.
