

# 2021 ERUPTIO VERDELHO

Region	Soil	Elevation	Alcohol
Azores, Pico Island	Volcanic	100m	12.5%

**Vineyard** Various vineyards

**Grape Varieties** Verdelho

**Vinification** The grapes come from the region of Candeira, with the downhill faced to Southwest in a soil of volcanic lava and vineyards with low capacity of production. After being selected, the grapes are pressed, splitting the tear wort and the low pressure.

**Aging** The tear wort fermented in stainless steel tanks at 15°C for 4 weeks. The remaining wort fermented on fine lees of 500 liters for 10 days.

**Tasting Notes** Aroma marked by notes of citrus fruits and soft gunpowder, involved in a pleasant and very mineral volcanic profile. On the palate, it is elegant and refreshing, showing all the influence of the proximity to the sea.

**Reviews** 2021 Vintage  
**Wine Enthusiast: 90 Points**
